

NOTICE OF AVAILABILITY
Request for Public Document Review of the
Guam Flight Test Proposed Final EA/OEA and Proposed FONSI

The Missile Defense Agency (MDA), in cooperation with the United States (U.S.) Navy, U.S. Air Force, U.S. Army, and U.S. Coast Guard (Cooperating Agencies), has prepared an Environmental Assessment (EA)/Overseas Environmental Assessment (OEA) to evaluate the potential environmental impacts from proposed missile defense flight tests or target tracking exercises conducted from Andersen Air Force Base on Guam or at sea from a Navy ship in the western Pacific Ocean (Proposed Action). The Proposed Action includes conducting up to two flight tests or tracking exercises per year over a 10-year period. The purpose of the Proposed Action is to validate the interoperability of multiple sensors and interceptor systems that could become part of a missile defense system developed to protect Guam.

Public Comment Period: June 3 through July 2, 2024

MDA and Cooperating Agencies invite you to review the Proposed Final EA/OEA and Proposed Finding of No Significant Impact (FONSI) and welcome your substantive comments on the accuracy and adequacy of the environmental impact analysis. The Proposed Final EA/OEA and Proposed FONSI are available for download and review at www.mda.mil/system/guamft or visit the Dededo and Nieves M. Flores Memorial public libraries to view a printed copy.
