*Needs and Uses:* This collection is necessary to collect essential personal information on foreign national students attending the National Defense University. The information collected is used to create profiles for the international students that ensures their needs are met as they transition to their time living in the United States as a student. It also helps them secure driving licenses, common access cards, facility identification number, temporary lodging assignment payments, and a defense travel system profile. Their preliminary information, including name, service, past assignments, etc. is collected via email correspondence while they are still in their home country. More sensitive information such as passport information, Date of Birth, Visa # and their FIN are collected either in person or over the WhatsApp messaging service, utilizing their end-to-end encryption. All student information is stored in a database that is only accessible to members of our office.

*Affected Public:* Individuals or households (Foreign Nationals).  
*Frequency:* Annually.  
*Respondent's Obligation:* Voluntary.

#### Notice To Reopen Public Scoping for the Homeland Defense Radar in Hawaii Environmental Impact Statement

**AGENCY:** Missile Defense Agency, Department of Defense (DoD).

**ACTION:** Notice of intent.

**SUMMARY:** The Missile Defense Agency (MDA) announces that it is reopening the public scoping period for the Homeland Defense Radar-Hawaii (HDR-H) Environmental Impact Statement (EIS). MDA will use the additional public scoping input to support preparation of the EIS in accordance with the National Environmental Policy Act (NEPA) of 1969.

**DATES:** MDA invites public comments on the updated scope of the HDR-H EIS during the 45-day public scoping period beginning with publication of this notice in the **Federal Register**. Comments will be accepted on or before April 12, 2021 to ensure their consideration in the Draft EIS analysis.

**ADDRESSES:** Written comments, statements, and/or concerns regarding the scope of the EIS should be addressed to MDA HDR-H EIS and sent by email to [mda.hdrh.eis@kfs-llc.com](mailto:mda.hdrh.eis@kfs-llc.com); by facsimile at 256-713-1617; or by U.S. Postal Service to: KFS, LLC, Attn: MDA HDR-H EIS, 303 Williams Ave., Suite 116, Huntsville, AL 35801.

Comments will also be accepted via voicemail by calling 1-888-473-6650. All comments, and commenters' names and addresses, will be included in the administrative record.

**FOR FURTHER INFORMATION CONTACT:** Ms. Heather Cavaliere, MDA Public Affairs at 256-450-1599 or by email to [mda.info@mda.mil](mailto:mda.info@mda.mil). Additional information on the project can be found at MDA's website: [www.mda.mil/hdrh](http://www.mda.mil/hdrh).

**SUPPLEMENTARY INFORMATION:** A notice of intent to prepare the EIS for this project was previously published in the **Federal Register** on June 1, 2018, 83 FR 25442-25443. The purpose for reopening public scoping is to provide opportunity for comment on substantive project changes to previously identified HDR-H alternatives on the island of Oahu, in addition to a new HDR-H alternative on the island of Kauai. MDA is preparing the EIS to evaluate potential environmental impacts that could result from construction and operation of the HDR-H (a radar to identify, track, and classify long-range ballistic missile threats in mid-course flight), an In-Flight Interceptor Communications System Data Terminal or IDT (a facility that provides communication between the Ground-Based Midcourse Defense fire control system and the interceptor, both stationed elsewhere), and associated support facilities and infrastructure. The Proposed Action would also include establishment of restricted airspace for the HDR-H site. The purpose of the Proposed Action is to support the Missile Defense System and enhance homeland defense capabilities for Hawaii. The Fiscal Year (FY) 2017 National Defense Authorization Act (NDAA) requires MDA to develop a plan to construct and operate a "discrimination radar" or equivalent sensor, for a location that will improve homeland missile defense for the defense of Hawaii. A "discrimination radar" is capable of identifying and classifying specific ballistic missile threats. The FY2021 NDAA authorizes MDA to continue Homeland Defense Radar—Hawaii (HDR-H) radar development and siting efforts. The FY 2021 Appropriation bill provided funding to continue these efforts in FY 2021. Therefore, MDA is engaged in Advanced Planning studies and preparing an Environmental Impact Statement (EIS) for the siting and development of the HDR-H, should a deployment decision be made and is funded. The DoD has not yet made a decision on where to deploy the HDR-H and is still in the process of evaluating alternative locations.

During the original public scoping effort, MDA held three public scoping meetings on Oahu between June 19 and June 21, 2018. Due to the ongoing Coronavirus Disease 2019 (COVID-19) public health emergency, and consistent with the Centers for Disease Control and Prevention's guidance regarding large events and mass gatherings, MDA will provide an Online Open House website and hold two Telephone Public Meetings in place of in-person public scoping meetings. The Open House website has been developed to provide the public with HDR-H EIS-related information and the ability to comment on the Proposed Action. Access to this information can be found on MDA's website at [www.mda.mil/hdrh](http://www.mda.mil/hdrh). Notification of the public scoping period, Online Open House website, and Telephone Public Meetings will be published and announced in local news media to encourage public participation and review.

In accordance with the current 40 Code of Federal Regulations (CFR) 1501.8, the Department of the U.S. Air Force, Department of the U.S. Army, Department of the U.S. Navy, and Federal Aviation Administration (FAA) have been identified as cooperating agencies in preparing the EIS.

During the 2018 public scoping effort, MDA identified three alternative locations on the island of Oahu for the proposed HDR-H complex, which would consist of multiple buildings and facilities placed within and outside of a restricted fenced area. The overall complex would occupy up to approximately 50 acres and require up to approximately 100 additional acres for temporary construction laydown area and new infrastructure, depending on topographic and environmental conditions. Originally, one HDR-H alternative was identified at Kuaokala Ridge (KR) on state-owned land adjacent to the U.S. Air Force Kaena Point Satellite Tracking Station (KPSTS), while two other alternatives were identified at U.S. Army Kahuku Training Area (KTA) on DoD property and labeled as KTA Site 1 and Site 2. Since 2018, MDA has conducted additional and more intensive siting studies to confirm alternative selection, and optimize facility planning and design. As a result, in 2020 MDA removed both the KR and KTA Site 2 alternatives from further consideration and added a new alternative at the U.S. Navy Pacific Missile Range Facility (PMRF) on DoD property on the island of Kauai. The EIS analysis will include three alternatives: one on Oahu (KTA-1), one on Kauai (PMRF), and a No Action Alternative.

Because operation of the radar would create a hazard in areas of the National Airspace System where high intensity radiated fields (HIRF) would exceed FAA certification standards for aircraft electrical and electronic systems, MDA would coordinate with FAA to establish a Restricted Area within the radar's field-of-view where the flight of aircraft would be restricted.

Operation of the proposed HDR-H radar at the KTA-1 alternative would cause radio frequency interference with the U.S. Air Force Solar Observatory located at KPSTS. Because of the radio frequency interference, selection of the KTA-1 alternative would require the existing Solar Observatory mission to be relocated off island to another military installation in Hawaii and the existing facilities at KPSTS potentially demolished. Alternatives for relocating the Solar Observatory are PMRF on Kauai or the Air Force Research Laboratory Remote Maui Experiment facility situated on privately-owned lands leased to the U.S. Air Force on the island of Maui. Relocation of the Solar Observatory would require approximately one to two acres of privately-owned land for long-term operations. An additional acre of adjacent privately-owned land could be needed as temporary laydown area during Solar Observatory facility construction. Under the HDR-H alternative at PMRF, should it be selected, the existing Solar Observatory on Oahu would not require relocation.

At each HDR-H alternative location, impacts will be assessed for the following resource topics: Airspace management, air quality, biological resources, cultural resources, environmental justice, geology and soils, hazardous materials and waste management, health and safety, infrastructure (utilities), land use, noise and vibration, socioeconomic, transportation, visual resources, and water resources.

This public scoping effort also supports compliance with Section 106 of the National Historic Preservation Act (NHPA) of 1966 and its implementing regulations at 36 CFR part 800. As such, MDA will be conducting consultation with Native Hawaiian Organizations, government officials, and other interested parties regarding historic and cultural resources under Section 106 of the NHPA as appropriate.

MDA encourages all interested members of the public, as well as federal, state, and local agencies to participate in the public scoping process for the preparation of this EIS. The public scoping process assists in determining the scope of issues to be

addressed, other alternatives that should be considered, and helps identify significant environmental issues to be analyzed in depth in the EIS.

#### Proposed Collection; Comment Request

**AGENCY:** The Office of the Under Secretary of Defense Comptroller, Department of Defense (DoD).

**ACTION:** Information collection notice.

**SUMMARY:** In compliance with the *Paperwork Reduction Act of 1995*, the Defense Finance and Accounting Service announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Consideration will be given to all comments received by April 27, 2021.

**ADDRESSES:** You may submit comments, identified by docket number and title, by any of the following methods:

*Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

*Mail:* The DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

*Instructions:* All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are

received without change, including any personal identifiers or contact information.

**FOR FURTHER INFORMATION CONTACT:** To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Defense Finance and Accounting Service, Kellen Stout, 8899 E 56th St., Indianapolis, IN 46249 or call (317) 212-1801.

#### SUPPLEMENTARY INFORMATION:

*Title; Associated Form; and OMB Number:* Request for Information Regarding Deceased Debtor, DD Form 2840; OMB Control Number 0730-0015.

*Needs and Uses:* The information collection requirement is necessary to obtain information on deceased debtors from probate courts. Probate courts review their records to see if an estate was established. They provide the name and address of the executor or lawyer handling the estate. From the information obtained, DFAS submits a claim against the estate for the amount due to the United States.

#### SUPPLEMENTARY INFORMATION:

*Title; Associated Form; and OMB Number:* Pacific Northwest Households Recreation Use Surveys; OMB Control Number 0710-0021.

*Needs and Uses:* The U.S. Army Corps of Engineers, Bonneville Power Administration (BPA), and Bureau of Reclamation (BOR), are jointly developing an environmental impact statement (EIS), referred to as the Columbia River System Operations (CRSO) EIS. As part of the EIS, the Corps is tasked with evaluating changes in the economic value provided by water-based recreation. The purpose of this survey effort is to gather information that will support development of a water-based recreational demand model for the Columbia River Basin in Washington,

Proposal, in which the Commission proposed requiring derivatives clearing organization (“DCO”) counterparties to report the information as well. The frequency of the report will not change for SD/MSP reporting counterparties, but the Commission estimated SD/MSP/DCO reporting counterparties would require more time to prepare each report. However, since all of this information is reported electronically, the Commission expected the increase per report to be small, from .003 to .004 hours per report. Since the Commission is not requiring DCO reporting counterparties to report the information, the Commission revised its estimate to .0035 hours per report. As a result, in the final rule the aggregate burden under § 45.4 was estimated to apply to 1,705 respondents, with 97,341 reports per respondent, .0035 average hours per report, and a gross annual reporting burden of 581,419 hours.

Amended § 45.4 creates costs for SDRs and reporting counterparties to update systems for reporting required swap continuation data. For the Proposal, the Commission estimated SDRs and reporting counterparties would incur a one-time initial burden of 10 hours per entity to modify their systems to adopt the changes to § 45.4, for a total estimated hours burden of 17,050 hours. The cost per entity was estimated to be \$722.30 for a total cost across entities of \$1,231,522. The Commission additionally estimated 5 hours per entity annually to perform any needed maintenance or adjustments to reporting systems, at a cost of \$361.15 per entity and \$615,761 across entities. However, the Commission re-evaluated the analysis for the final rule and realized that since the costs relate to reporting certain swap data elements, they are covered in the start-up and initial costs for § 45.3 described above. To avoid double-counting, the Commission removed the estimates for § 45.4.

### 3. Amendments to Regulation 45.5

Amended § 45.5 creates costs for entities that were previously required to generate Unique Swap Identifiers (“USIs”) to update their systems to generate Uniform Transaction Identifiers (“UTIs”). The PRA section of the Proposal estimated that SDRs and reporting counterparties required to generate UTIs would incur a one-time initial burden of 1 hour per entity to modify their systems to adopt the changes to § 45.5, for a total estimated hours burden of 940 hours. The Commission additionally estimated 1 hour per entity annually to perform any needed maintenance or adjustments to

reporting systems. The related Supporting Statement filed with OMB for the Proposal estimated that the cost per entity for the one-time initial burden would be \$72.23 for a total cost across entities of \$67,896, and an additional cost of \$72 per entity and \$67,680 across entities annually to perform any needed maintenance or adjustments to reporting systems. The PRA section of the final rule did not make any changes to the Commission’s burden hour estimates for SDRs and reporting counterparties to modify their systems to adopt the changes to final § 45.5 in connection with either its estimates of either the one-time initial burden estimate or the burden of ongoing maintenance or adjustments to reporting systems. The final rule also did not change the estimated cost per entity of \$72.23 per entity or a total cost across entities of \$67,896 in connection with the Commission’s estimate of the one-time initial burden costs for SDRs and reporting counterparties required to generate UTIs. However, the PRA section of the final rule corrected the estimated cost per entity for ongoing maintenance or adjustment to reporting systems in the supporting statement for the Proposal from a cost of \$72 per entity and \$67,680 across entities to a cost of \$72.23 per entity and \$67,896 across entities for final § 45.5.

*Burden Statement:* Provisions of CFTC Regulations 45.2, 45.3, 45.4, 45.5, 45.6, 45.10 and 45.14 result in information collection requirements within the meaning of the PRA. With respect to the ongoing reporting and recordkeeping burdens associated with swaps, the CFTC is revising its estimate of the burden of this collection. The Commission believes that SEFs, DCMs, DCOs, SDRs, swap dealers (“SDs”), major swap participants (“MSPs”), and non-SD/MSP/DCO counterparties incur an annual time-burden of 1,226,021 hours. This time-burden represents a proportion of the burden respondents incur to operate and maintain their swap data recordkeeping and reporting systems. The respondent burden for this collection is estimated to be as follows:

*Respondents/Affected Entities:* SDs, MSPs, SDRs, DCMs, SEFs, and other counterparties to a swap transaction (i.e., non-SD/MSP/DCO counterparties).

*Estimated Number of Respondents:* 1,732.

*Estimated Average Burden Hours per Respondent:* 708.

*Estimated Total Annual Burden Hours:* 1,226,021 hours.

*Frequency of Collection:* Ongoing.

*Capital or Operating and Maintenance Costs:* \$51,961,428.

#### Water Resources Development Act of 2020 Comment Period and Stakeholder Sessions

**AGENCY:** U.S. Army Corps of Engineers, DoD.

**ACTION:** Request for comments; announcement of stakeholder sessions.

**SUMMARY:** The Assistant Secretary of the Army for Civil Works (ASA(CW)) is issuing this notice for a comment period for stakeholders and other interested parties to provide input and recommendations to the ASA(CW) on any provisions in the Water Resources Development Act (WRDA) of 2020. The Office of the ASA(CW) will consider all comments received before any implementation guidance is issued.

**DATES:** Five stakeholder sessions will be held to allow the public to provide input on any provisions in WRDA 2020. Commenters can provide information on any provision of interest during each session. We encourage stakeholders with specific interests to a U.S. Army Corps of Engineers (Corps) mission area to participate in the session aligned with that mission area. The ASA(CW) and the Corps will co-host focused sessions using webinars/teleconferences by means of the web link <https://usace1.webex.com/meet/WRDA2020> and teleconference information at (844) 800-2712, Code 199 937 4287 at the following dates/times: March 16, 2021 from 1:00 p.m. to 3:00 p.m. Eastern to receive comments on Navigation (Inland and Coastal) provisions; March 23, 2021 from 1:00 p.m. to 3:00 p.m. Eastern to receive comments on Flood Risk and Coastal Risk Storm Damage provisions; March 30, 2021 from 1:00 to 3:00 p.m. Eastern to receive comments on Ecosystem Restoration and Nuisance Species provisions; April 6, 2021 from 1:00 to 3:00 p.m. Eastern to receive comments on Water Supply and Hydropower provisions; and April 13, 2021 from 1:00 to 3:00 p.m. Eastern to

receive comments on any WRDA 2020 provisions. The public comment period will end on May 7, 2021. Comments must be received on or before that date to be considered during development of implementation guidance.

**ADDRESSES:** You may submit meeting requests or comments, identified by Docket ID No. COE-2021-0002, by any of the following methods:
