

**Missile Defense Agency 2020
Office of Small Business Programs
Virtual Conference**

May 12 - 14, 2020

The Department of Defense is engaged in one of the greatest global challenges of our time as we work together to combat the spread of the coronavirus disease. At MDA, we are committed to taking every precaution to ensure the health and wellbeing of our people. During these times, it is important that we minimize person-to-person interaction and practice social distancing, whenever possible.

As we do our part to mitigate the effects of this pandemic, we must remain prepared to carry out our core mission. Therefore, it is important that we all strive to make this virtual small business conference as productive, informative, and engaging as the live conference would have been. The MDA Small Business Programs Conference is designed to assist Small Business contractors in doing business with MDA by providing information about opportunities to support the Missile Defense System requirements in upcoming procurements.
